Notes

*Each pound of green beans = ~ 4 cups; 7 cups Frozen Green Beans = ~5 cups green beans when cooked

Bring frozen green beans to a boil in a small amount of water without adding salt. Simmer 10 minutes until partially cooked.

Drain green beans.

Combine condensed soup (cream of mushroom soup may be substituted for variety if your clients like) and water (hot) and pour over hot green beans.

1/2 cup of Fresh diced celery, fresh diced onion or fresh sliced mushrooms may be added for each 10 servings the recipe produces - this adds only a minimal amount of sodium, carbohydrate and calories but allows for variation to meet the tastes of clients.

Pan, cover with foil and place in 350 degree oven for 45 minutes to 1 hour before serving.

Potentially Hazardous Food. Food Safety Standards: Hold food for service at an internal temperature above 140 degrees F.

1 serving = 1/2 c or 1 #8 scoop or 4 oz spoodle

1 serving = 1 vegetable serving

1 serving = 7 grams carbohydrate = 1/2 carb serving
